

In the Specification:

Page 6, lines 25-30, amend the section to read:

A1 N.E. NOT AT
"Thus, the system of the present invention may be used with screens and pages received over the Internet. ~~I/O devices such as keyboard 24 and mouse 32 are also connected to system bus 12 via user interface adapter 22. It is through such input devices that the user may make conventional data entries.~~"

Page 9, lines 16-20, amend the section to read:

A2 N.E. NOT AT
"In this keyboard entry mode, the keyboard 50 becomes less transparent and more clearly defined for ease of use. The keyboard is then used for entry of text 55 or for keystroke editing ~~55~~ 54."

Page 10, lines 31-33, amend the section to read:

A3 N.E. NOT AT
If the determination in step 72 is No, the keyboard mode has not been selected, then step ~~45~~ 75, the keyboard is made more transparent, i.e. a "ghost"
